# Our Responsibilities

- Stonemasons build and repair stone structures such as piers, walls or arch supports using stones and pieces of rock.
- Entails cutting, shaping, and laying stones to create artistic structures such as monuments, tombstones, and statues.
- Stonemasons work with a range of tools in shaping and assembling of rock pieces. They set and verify the vertical and horizontal alignment of structures using levels and plumb bob.
- They mark out and measure distances with the aid of stake lines, straightedges and rules.
- They also trim and smoothen work pieces using chisel, hammer and power grinder.

- Stonemasons work with both natural stones (granite, marble, limestone) and artificial stones (cement mixed with chips).
- They introduce mortar in between stone rows using a trowel. They also indicate cutting lines along the grain of work materials and cut to various sizes using an abrasive saw or hammer.
- As part of their responsibilities, stone masons produce detailed stone carvings for buildings to replicate or replace an existing stone structure.
- They install prefabricated stones on building walls or surfaces using traditional lime mortars
- They use blow torch and mastic to fix cracked or chipped areas on marble or stone.
- They also remove rough concrete parts using a power grinder or a chisel and hammer.
